

ARTHI R

Frontend-Focused Full Stack Engineer | UI/UX Developer
Kutty023 (Github) | in/arthi-r-aa41b519 | arthiOWR2024@gmail.com | 9108161367

About

Front-end-focused Full Stack Engineer with hands-on experience designing, developing, and deploying scalable web applications and internal tools using MERN stack. Proven ability to analyze business requirements, architect user-centric UI/UX solutions, and implement secure, high-performance systems. Experienced mentor with expertise in design systems, accessibility, code quality, system fundamentals, and cross-functional collaboration.

Core Skills

- **Programming:** Python, C++, JavaScript, Data Structure and Algorithms, Appscript
- **Web & Frameworks:** HTML5, CSS3, React, Node, Express, MongoDB, REST API's
- **UI/UX & Design:** Figma, Wireframing, Adobe, Design Systems, UX Case Studies, Prototyping
- **Tools & Platforms:** Git, GitHub, VSCode, Vercel, Render, Excel
- **Security & Networking:** Burp Suite, Nmap, Cisco Packet Tracer, CCNA, Secure Coding practices

Projects

Task Management Platform

Tech: React, Node.js, Express, MongoDB, Figma

- Designed end-to-end user flows and high-fidelity UI for a role-based task management platform.
- Built scalable design systems and reusable UI patterns focused on clarity, usability, and accessibility.

Product Dashboard (Analytics UI)

Tech: React, JavaScript, CSS, Figma

- Designed responsive analytics dashboard UI with clear visual hierarchy and data-focused layouts.
- Optimized interactions and usability to support clarity, performance, and decision-making.

UX Dashboard Redesign – Case Study

Tech: Figma

- Conducted UX analysis to identify usability gaps in an existing product dashboard.
- Redesigned user flows, information architecture, and visual hierarchy.
- Created wireframes and high-fidelity designs mapped to reusable frontend components.
- Documented design decisions with a problem–solution approach.

Professional Experience

IT Engineer – Desai Clothing Exports Pvt Ltd

June 2025 - Present | Bangalore

- Analyzed operational workflows, partnered with stakeholders to deliver scalable, technology-driven solutions
- Designed and developed internal task and communication systems to improve visibility, coordination, and turnaround time.
- Automated routine processes to reduce manual effort and enhance overall operational efficiency.

Web Developer - Cappricio Securities

March 2025 - June 2025 | Remote

- Designed and developed a responsive mobile web application using Figma, HTML, CSS, and JavaScript, ensuring usability, performance, and secure implementation.

Technical Mentor

Mar 2023 - Aug 2024 | Bangalore

Kalvium

- Led technical mentoring across UI/UX design, full-stack web development, DSA, and core programming fundamentals, ensuring industry-aligned skill development.
- Reviewed and evaluated 100+ UI/UX design files and multiple full-stack projects, delivering actionable feedback on usability, design systems, and code quality.
- Contributed to a WhatsApp automation solution that improved response efficiency.
- Supported sprint coordination and team collaboration activities.

Education

BTech in Computer Science Engineering - 2023 Graduate
CGPA: **8.42**

REVA University | Bangalore

Certifications

- Python - HackerRank
- Full-Stack Web Development with React
- Responsive Web Design Certification - FreeCodeCamp (Ongoing)
- JavaScript Algorithms and Data Structures - FreeCodeCamp (Ongoing)
